

Safety Mat Options

Customization Capabilities

Color

Larco safety mats are available in a number of color options. The standard Larco mat color is black. Other colors such as safety yellow are available upon request.

Custom Lettering and Logos

Informational messages such as "Caution" or "Do Not Step" or symbols can be added to your safety mat utilizing contrasting colors to provide a visual warning or message to personnel. Larco has a variety of symbols in stock and can custom-build logos for any specific application.

Custom Sizes and Shapes

With the largest selection of standard sizes available, Larco keeps your customization costs low. Any of these mats can be modified into a unique size or shape for your specific application.

Standard sizes available (in inches):

12 x 12	24 x 20	30 x 30	36 x 36	48 x 48

18 x 24	24 x 56			
18 x 36	24 x 60			
18 x 48	24 x 72			
18 x 60				
18 x 72				

Larco Labor Saver Self-Adhesive Mat System

In mounting situations where trim is just not practical, the Larco Labor Saver Self-Adhesive Mat System can be used to secure mats. This mat option includes a specially formulated adhesive, which is factory applied directly to a mat or trim surface to hold mats and trim in place without screws or other mechanical fasteners. For more information on this installation option, request Technical Bulletin-3.

Mat Wiring

All Larco mats are configured with a 20-foot long, single jacketed, four-wire cord unless otherwise specified at the time of purchase.

Four-Wire Plug Cord

Larco offers the convenience of a molded plug for easy wire connections. When used with the control box receptacle they form a watertight mechanical connection and seal.

Field Installed Plugs

A fast, efficient means of interconnecting mat systems to controls, field installed plugs have the same watertight characteristics as the molded plug and can be attached to Larco's standard 20-foot long cord.

PN226724

Control Box Receptacles

Accepts the Larco plug cords and are typically mounted in the mat control device or mat wiring junction box.
